1. The attached preliminary report (Tab A) on subject is provided for your information and use as appropriate. The report is in the process of being forwarded to the DCI, pursuant to his request of 21 December 1983. [REDACTED]

2. This report was developed by a CIPC Task Force (Tab B) specifically convened to respond to the DCI's tasking of the CIPC to identify gaps, and to recommend collection, analysis and production initiatives to improve the level of intelligence on this issue. [REDACTED]

3. With the completion of the Task Force's initial assignment to develop this preliminary report, we are now prepared to undertake the more difficult task of developing the detailed study, which is required within 4-6 weeks. In order to meet this deadline, the Task Force will be expanded into a full CIPC Intelligence Community Working Group, to include the collection and production committees, as appropriate. It is therefore requested that you provide to me or [REDACTED] the name of your respective working group member by 15 February 1984. Subsequent to identifying the working group membership, the Working Group Chairman, [REDACTED] will immediately convene the working group to develop and finalize the Ballistic Missile Defense Study for the DCI.
